Profile

Dedicated Functional Tester with 1 year of experience in meticulously evaluating software applications to ensure optimal performance and user experience. Proficient in various testing methodologies, bug tracking tools, and documentation processes. Adept at collaborating with cross-functional teams to meet project deadlines and deliver high-quality results. Committed to continuous learning and staying current with industry trends and best practices.

Employment History

Functional Tester at Cognizant Technology Solutions, NH

May 2023 - Present

- Led a team of 5 testers in successfully completing the functional testing phase for a major client's software upgrade project within the stipulated time frame of 6 months, resulting in a 20% reduction in reported defects post-release.
- Streamlined the functional testing process by implementing automation tools and continuous integration, resulting in a 30% increase in overall testing efficiency and a 15% decrease in project delivery time.
- Devised and executed test plans for a critical financial application, identifying and resolving over 100 high-priority defects before the product launch, ensuring a smooth and seamless user experience for over 10,000 end users.

Associate Functional Tester at Fidelity Investments, NH

Jul 2022 - Mar 2023

- Successfully identified and resolved over 150 critical software defects in the company's flagship application, leading to a 30% improvement in overall system performance and reliability.
- Streamlined the functional testing process by implementing automated test scripts, reducing the testing cycle time by 40% and increasing test coverage by 25%.
- Actively collaborated with cross-functional teams to develop and execute test plans for three major product releases, resulting in a 20% reduction in post-release defects and contributing to a 15% increase in customer satisfaction ratings.
