- State regulations knowledge
- Customer service
- Problem resolution
- Meal Preparation
- MS Office
- Team Bonding
- Strategic Planning
- Creative problem solving/A3 process
- Professional telephone demeanor

WORK HISTORY

COVID-19 SUPPORT TEAM AND PRE-OP TESTING 05/2020 to 07/2020

Christiana Care Health System | Carneys Point, NJ

During this pandemic, when everything was on quarantine and the state was shut down, all elective surgeries were halted and rescheduled. This was for about 2 months. After the state was opened, CDC required all hospitals to have every elective surgery patient test for COVID-19 before their surgeries. I was in charge of calling patients to get their tests scheduled prior to surgery as well as answer any COVID-19 related questions they may have had. They had to have these tests done exactly 3 days before surgery so it was imperative that we called these patients and went above and beyond to get them in to have surgery in time. If they did not get these done then their surgeries were to be rescheduled.

A lot of patients did not reside in Topeka, and they would have to drive very far to get this done. Several requested that they get their testing done at a hospital or clinic setting that tested for COVID-19. I would communicate with these out-of-network providers to ensure that we get their test completed and the results sent to us so that they can have these surgeries in time.

- I called patients daily to get on schedules. I would keep in touch with their primary care providers so they are aware of what testing needs done prior to surgery.
- Asked patients what symptoms they may have that are COVID-19 related, so that I can assure the safety of our employees as well as other patients and themselves before they came to their surgeries.
- Communicated with the COVID-19 team and hotline to ensure patient safety, as well as ensure the quality of care was satisfactory.

MEDICAL ASSISTANT

08/2018 to 07/2020

Stormont Vail/Cotton O'neil Clinic | City, STATE

- Enhanced patient outcomes by providing knowledgeable education on procedures, medications and other physician instructions.
- Sanitized, restocked and organized exam rooms and medical equipment.
- Oriented and trained new staff on proper procedures and policies.
- Updated inventory, expiration and vaccine logs to maintain current tracking documentation.
- Kept medical supplies in sufficient stock by monitoring levels and submitting replenishment orders before depleted.
- Explained procedures to patients to reduce anxieties and increase patient cooperation.
- Completed clinical procedures and gathered patient data for interpretation by physician.
- Conducted preliminary evaluations, including measuring weight, temperature and blood pressure, and documented results with accuracy.
- Communicated clearly and effectively with patients to verify information, determine purpose of visit and record medical history.
- Implemented care and efficiency improvements to support and enhance office operations.
- Balanced, calibrated and recorded appropriate hemodynamic data.
- Collected all pertinent data and calculations to aid physician in interpreting results.
- Directed patients to exam rooms, fielded questions and prepared for physician examinations.
- Arranged surgeries with surgical center, confirming times with patients and preparing admission and consent forms.
- Attended required training, education and meetings.

MENTAL HEALTH/DEVELOPMENTAL DISABILITY TECHNICIAN

03/2012 to 08/2018

Kansas Neurological Institute | City, STATE

- Assisted people whom I cared for with mobility needs, including moving to and from beds, organizing wheelchairs and preparing assistive devices.
- Monitored, tracked and conveyed important patient information to healthcare staff to help optimize treatment planning and care delivery.
- Helped the individuals whom I cared for to effectively manage routine bathing, grooming and other hygiene needs.
- Promoted good oral and personal hygiene by aiding clients with shaving, bathing and teeth brushing.
- Maximized individual satisfaction by helping individuals carry out personal tasks such as dressing and walking.
- Participated in various activities with the individuals who I cared for to boost mood, improve overall memory and provide meaningful life.
- Reported any unusual or urgent circumstances in patients' condition or environment immediately to Nursing staff and risk management.
- Administered medications or treatments such as daily routine medications, breathing treatments, suppositories, enemas, etc. as directed by nurse
- Collaborated with peers and attended weekly homestaff meetings to brainstorm new activities for individuals and discuss ways to resolve issues.

DIRECT SUPPORT STAFF/CNA/HHA

06/2016 to 01/2017

Loving Hearts Training Center | City, STATE

- Assisted patients with mobility needs, including moving to and from beds, organizing wheelchairs and preparing assistive devices.
- Gathered dietary information, assisted with feeding and monitored intake to help patients achieve nutritional objectives and support wellness goals.
- Promoted good oral and personal hygiene by aiding patients with shaving, bathing and teeth brushing.
- Oversaw and maintained patients' rooms, group living areas and nurse stations.
- Facilitated activities of daily living, including personal hygiene management, feeding and ambulation.
- Helped patients effectively manage routine bathing, grooming and other hygiene needs.
- Coordinated daily medicine schedules and administration to help clients address symptoms and enhance quality of life.
- Completed entries in log books, journals and care plans to document accurately report patient progress.
