

Ben Grantham

Architect

Vision driven architect with 4+ years of experience. Strong believer in the transformative power of elegantly designed public spaces. Client-focussed approach with an emphasis on bringing creative concepts into practical and feasible reality. Won London Young Architects Award. Seeking to expand my knowledge of public space design with Eriman Consultants.

Skills

Software skills. Auto CAD, Civil 3D & Rhino 6.

Stakeholder management. Maintained constant communication with local authorities and residents' groups.

Problem solving. Skilled in developing new compliant solutions when planning decisions overturn original proposals.

Engineering. High level of knowledge of specialist materials used in reducing carbon footprint and environmental impact of construction.

Time management. Delivered 90%+ of projects within original timeframes and communicated delays clearly when unforeseen circumstances occurred.

Languages

French C1

Experience

2015-09 - present **Architect**
Fontaine and Smythe, Battersea, London

- Led on design and execution of communal and green spaces for six major residential developments.
- Partnered with Merton Council to assist in producing propositions for £100m revamp of Morden town centre.
- Maintained high-level communications with clients and stakeholders, achieving a customer satisfaction score of 95%+.
- Created 3D models and proposal for emergency housing constructed from repurposed shipping containers winning the London Young Architects Award in the innovative solutions category.

Key achievement: Delivered high-quality client communications that led to the partnership being awarded a long-term collaboration with Wandsworth Borough Council.
