

- Performed slashing and chemical spraying activities to control weeds
- Harvested yields using equipment including harvesters and tractors
- Tended to farm animals and livestock, ensuring they remained fed and healthy, got enough exercise, and were appropriately groomed
- Observed cattle for signs of illness and reported observations immediately to the Farm Manager
- Mucked out livestock areas and sterilised farm equipment
- Herded cattle around the farm on foot and on farm bikes
- Repaired farm buildings and fences and ensured regular maintenance procedures were upheld
- Adjusted and repaired farm machinery and notified the Farm Manager of any malfunctions

#### *Key Achievements*

- Identified a case of Bovine Tuberculosis before it had chance to take hold among the herd, resulting in the deaths of only 2 cows (in a herd of 200).
- Supported the farm to yield a 60% increase in crops in 2017 by following strict cultivation schedules.

**Aug 2015 - Aug 2016**

**Orchard Farm, Selby  
Junior Farm Hand**
