- Diabetes management
- Training & Development
- Colostomy care familiarity
- MS Office
- Data Management
- Supervision
- Analytical
- Surgical risk assessment

EXPERIENCE

PRE-ADMISSION TESTING RN 07/2015 to CURRENT

Hca | Oviedo, FL

- Assessed surgical risk factors and implemented anesthesia protocols.
- Utilized medical records and cardiac testing to help anesthesia provide surgical clearance.
- Helped patients and families feel comfortable during challenging and stressful situations, promoting recovery and reducing compliance issues.
- Assessed patient conditions, monitored behaviors, and updated supervising physicians with observations and concerns.
- Assessed patient conditions, monitored behaviors, and updated supervising physicians with observations and concerns.
- Maintained strict patient data procedures to comply with HIPAA laws and prevent information breaches.
- Observed strict safety measures, including checking medication dosages before administration to patients.
- Utilized computerized Resource and Patient Management System (RPMS) and Electronic Health Record (EHR) system.
- Delivered information regarding care and medications to patients and caregivers in comprehensible terminology.
- Participated in continuing education programs and CAPA workshops to enhance training and nursing knowledge.
- Maintained infection control logs, streamlined charting process, and improved patient outcomes through training and leadership.

CNA 07/2010 to 07/2013

Azria Health | Missouri Valley, IA

- Maintained medication stock and cleaned patient rooms and equipment.
- Observed patient vital signs and medication reactions and reported health concerns or behavioral changes.
- Prevented the spread of infection by consistent hand washing, universal precautions, and special isolation procedures.
- Documented information in patient charts and communicated status updates to the interdisciplinary care team.
- Collected patient specimens and data and monitored vital signs, input, output, and other necessary measurements.
- Monitored expiration of medications and medical supplies through logbooks and checking recalls.
- Collected biological specimens and packaged them for laboratory transport to complete diagnostic tests.
- Assisted medical procedures.
- Provided patient education for gynecological and obstetrical care.
- Triaged phone calls and monitored patient conditions.
- Utilized EClinical Works software (EHR).

MEDICAL ASSISTANT 05/2005 to 07/2010

Emory Healthcare | Birmingham, GA

- Relayed messages from patients to physicians about concerns, condition updates or refill requests to facilitate treatment.
- Scheduled appointments for patients via phone and in person.
- Interviewed and engaged patients to obtain medical history, chief complaints and vital signs.
- Prepared treatment rooms for patients by cleaning surfaces and restocking supplies.
- Educated patients about medications, procedures and physician's instructions.
- Organized charts, documents, and supplies to maintain team productivity.
- Contacted pharmacies to submit and refill patients' prescriptions.
- Assessed, documented, and monitored vital signs for patients within an outpatient setting.
- Assisted with diagnostic testing by collecting and packaging biological specimens for internal and laboratory analysis.
- Followed principles of asepsis and infection control to meet patient safety guidelines.
- Partnered with healthcare and administrative staff to create patient-centered, inviting and supportive environment for patients and families.
- Contributed to office operations by triaging patients by severity of medical complaint.
- Coordinated and executed medical waste disposal according to governmental and organizational standards.
- Processed and produced ER, OR and portable x-ray information to assist diagnosis.
- Assisted with interventional pain procedures.
