Career Summary

Oct 2017 - Present

Zenith Pharmaceuticals, Tampa, FL
Vice President of Finance

Outline

Lead the financial operations for a prominent pharmaceutical company based in Florida worth \$203 million, driving the company's financial growth, efficiency, and compliance with regulatory requirements.

Key Responsibilities

- Develop and execute financial strategies aligned with the company's long-term goals and objectives
- Oversee budgeting, forecasting, and financial reporting processes, ensuring accuracy and timeliness
- Monitor financial performance, analyze variances, and implement corrective measures as needed
- Manage relationships with external auditors, banks, and regulatory bodies to ensure compliance
- Conduct comprehensive risk assessments and implement risk mitigation strategies
- Lead mergers and acquisitions activities, including due diligence and integration planning
- Drive process improvements to optimize cost efficiency and resource allocation

Key Achievements

- Spearheaded a successful capital raising initiative in 2019, securing \$50 million in funding for research and development, leading to accelerated product development timelines.
- Implemented a robust cost analysis framework in 2021, resulting in a 15% reduction in overall operating expenses within the first year.

Dec 2011 - Oct 2017

Tantern Pharmaceuticals, Miami, FL
Finance Director

Outline

Worked for a leading pharmaceutical company based in Miami with an annual turnover of \$400 million, managing the company finances and leading the senior management team.

Key Responsibilities

- Led the financial planning and analysis process for the clinical development business unit
- Collaborated with cross-functional teams to develop and implement the annual budget
- Reported on financial performance and provide analysis of variances
- Developed financial models to support business planning and forecasting
