SUMMARY

I am a very hard working and dedicated person. I am very good with catching on and learning fast on a task. I enjoy hands on work as I run a racing team and take very much pride into my work. I can do fabrication work and weld and have good skills with computer diagnostics for troubleshooting a problem and can following diagrams very well.

I work very good with others and willing to take orders and see the project through to the end. I am willing to listen and learn from anyone and also show what I know myself to try and better me and my team. I am willing to take on new challenges and stay focused on them till i have achieved my goal. I am very good with multitasking and paying attention to the fine detail that is needed to make the job that much better upon completion.
