EXPERIENCE

Emard-Ullrich

Dallas, TX // Database Manager // 12/2017 – present

- Discuss team staffing needs and scope with the leadership team. This might lead to discussions of allocations changes and/or hiring
- Work closely with the Product Manager, Tech Lead and other teams in our organization on planning upcoming work and formalizing proposals
- Develop a good understanding of your team. Their strengths, weaknesses and development goals
- Understand your team's challenges

Hilpert, Zemlak and Douglas

Dallas, TX // Database Manager // 12/2012 – 08/2017

- You ensure that customer issues get addressed reliably and timely even when they cross team-boundaries. You communicate with our customers in collaboration with support and Product Managers
- Identify and remove roadblocks and risks to delivering your team's work
- Coach engineers on your team
- Organize how your team handles interrupt driven work (customer issues, bugs, CI failures)

EDUCATION

Pratt Institute

Bachelor's in Computer Science
