

# Domenico Calabrese

Part II Architectural Assistant  
Autodesk Revit Architecture Certified

## Who I am

Motivated, sociable, helpful, versatile, ambitious, enterprising, tenacious, dynamic, open-minded with great adaptability different workplaces.

After graduation at the University of Florence I worked with FabbriCANOVE studio and I held the position of University teacher assistant in the courses given by prof. Giovanni Bartolozzi.

I decided to change my life and make a new experience both socially and professionally, so I came to London, the city that is able to make me achieve my targets.

The professional experiences that I have had until now enable me to work both in group and individually. I find it constructive and stimulating to confront myself new work place and to share my passion and creativity with other people.

I am interesting both in architectural design at different scales, use of materials and new construction technologies and digital design.

## About

08/12/1987 - (ITALY)  
born
