EXPERIENCE

Architectural Designer, 07/2021 - Current

Mead & Hunt – Or, OR

- Working on various project phases such as conceptual design, schematic design, construction drawings, checking consultant drawings and site visits.
- Working on developing 3-dimensional models and construction drawings on various software like Revit, Sketchup, AutoCad, Adobe Suite, etc.
- Collaboration with a multi-disciplinary team to design residential and commercial projects in Northern California.
- Collaboration and discussions with a Licensed Project Architect to develop construction documents for the required project. Regular meetings with the Project Architect, manager, consultants and other parties involved in the project and meticulously discuss the various tectonics of the project in order to avoid errors and discrepancies, comply to safety codes and make decisions in order to meet the project budget.
- Interacted with clients to ascertain requirements and desires for custom homes.
- Researched building codes and properly applied to designs.
- Meet various Requests for Information (RFI) from the contractor involved in the specific project.
- Performed 3D site scans to get details on the existing conditions of the site.
- Working on producing 3D photo-realistic renders and Virtual Reality Models on Lumion and Twinmotion in order to provide clients/owners with an immersive experience.
- Responsible for making 3D printed models for project presentations.
- Select material finishes for a project to match client's requests. Also, make decisions on interior finishes and materials in order to match the project aesthetics and provide weather protection.

Research Assistant, 03/2020 - 05/2021

Care New England Health System – Cranston, RI

- Created workflows to convert site data to point clouds scans which can be interacted with through various VR systems.
- Prepared design models and presentations for various competition projects.
- Put together content for a publication on urban research.

Architectural Intern, 06/2020 - 08/2020

Cp&Y – Tulsa, OK

- Drafted detailed drawings of structures, specifying dimensions and materials needed.
- Created professional, to-scale sketches to communicate and clarify special requirements.
- Created conceptual design options for community design projects.
- Researched and presented on defining an updated urban system for a post-covid city.

Architectural Intern, 06/2018 - 05/2019

Hntb Corporation – Chicago, IL

- Used Autocad to complete construction documents.
- Prepared building specifications based on local regulations and codes.
- Maintained and organized blueprint files.
- Drafted detailed drawings of structures, specifying dimensions and materials needed.
- Took accurate site measurements to support building planning stages.
- Created oral and written presentations for project designs and proposals.
- Completed formal design intent and construction documentation.
- Fostered and maintained collaborative professional working relationship with project leadership team and client.
