Career Summary

Sep 2016 - Present

ABC Architects, Norfolk
Architect

Outline

Supervising and coordinating 5 professionals inclusive of an Architect, Quantity Surveyor, Building Services Engineer, Building Engineer, and Draftsman in the development of architecture projects.

Key Responsibilities

- Overseeing the production of concept design drawings and other associated documentation inclusive of schematic designs and construction and working drawings.
- Employing design and construction management to lead architecture competitions and develop scale and 3D models to support architectural design concepts and research work.
- Contributing to the creation and final presentation of tenders and the expansion of interior design projects.
- Coordinating site implementations between the Norfolk and the London Office.

Key Achievements

- Delivered key aesthetic and creative insight into the interior renovation of a historic landmark and received the ABS Interior Design award for professional excellence.
- Proposed a new design for a building in accordance with a client's preferred style, which resulted in the selection of ABC Architects for a £10M contract.
