## WORK EXPERIENCE

### Acme Corp

January 2015 - January 2016

#### Environmental Consultant

- Conducted site visits and performed field quality control and inspections for soil and concrete to ensure compliance with project requirements and environmental standards.
- Managed the laboratory analysis process for samples collected, ensuring accurate and timely results.
- Maintained and organized lab reports and permitting documentation for easy retrieval and reference.
- Collaborated with a multidisciplinary team to ensure project deliverables were met and environmental objectives were achieved.
- Provided technical expertise and support in environmental planning and permitting processes.
- Assisted in the preparation of environmental impact assessments, environmental management plans, and other environmental documents.
- Stayed updated on environmental regulations and guidelines to ensure compliance in project activities.
- Communicated with stakeholders and regulatory agencies to address environmental concerns and ensure adherence to environmental standards.

### Acme Corp

January 2016 - January 2017

#### Environmental Consultant

- Provided technical support for research regarding water use and evapotranspiration of native plant communities in the Green Valley.
- Central to the project was determining the relationship between evapotranspiration and water table depth with respect to regional groundwater pumping schemes that support the Green Valley's extensive agricultural industry and water allocations of the Green River.
- Responsibilities included maintaining several Radiation and Energy Balance Systems Bowen Ratio evapotranspiration stations, collecting data on weather, soils, and water table depths stored on Alpha CR10X data loggers, as well as modeling and analyzing data using regression and analysis of variance.
- Collaborated with a team of researchers and water resource professionals to interpret and communicate research findings to stakeholders and policymakers.
- Presented research findings at conferences and contributed to scientific publications on water resource management and sustainability in the Green Valley.

### Acme Corp

January 2021 - January 2022

#### Junior Environmental Consultant

- Collected environmental air, soil, and water field samples in adherence with client specifications and legislative requirements.
- Reviewed survey sites to update and maintain detailed site descriptions.
- Supervised collection, analysis, and reporting of all relevant data.
- Conducted research, gathered information from multiple sources, and presented results.
- Collaborated with land surveyors, utility locators, construction contractors, waste services, law enforcement, and client representatives.
- Worked with major clients such as Acme Industries and Global Energy.
- Participated in continuous development initiatives.
- Analyzed and documented on-site hazards to promote risk mitigation.
- Identified issues, analyzed information, and provided solutions to problems.
- Used critical thinking to break down problems, evaluate solutions, and make decisions.
- Participated in team-building activities to enhance working relationships.
