### CAREER OBJECTIVE

To obtain the position of Agile QA Tester in a company where I can excel and further enhance my ability to succeed in the workplace.

### EDUCATION

#### Bachelor's Degree in Computer Science, 2012

Indiana State University,  
Terre Haute, IN

### EMPLOYMENT

#### Agile QA Tester | QualiTest Group

2016 - Present

- Ensured the testing design supported the reuse of test cases during regression testing.
- Participated throughout the design and development process, analyzing features to point out weaknesses and inconsistencies.
- Executed test cases for system, functional and regression scenarios.
- Identified bugs through systematic testing, help developers reproduce errors and ensured that defects were fixed.

#### Agile QA Tester | Capgemini

2014 - 2016

- Executed performance tests created by QA Engineers.
- Ensured that software requirements were verifiable and quantifiable, wrote test plans and built test cases with direct involvement from business customers.
- Executed detailed test procedures, manual and automated, designed to validate application functional requirements.
- Performed exploratory testing and acceptance of new features as part of a story-driven Agile development process.
- Opened defect tickets with clear, detailed explanations and instructions to reproduce.
