SUMMARY

Experienced Civil Engineer with a proven track record of delivering successful civil engineering solutions across various sectors. Skilled in leading and managing projects, conducting feasibility studies, and collaborating with multidisciplinary teams. Proficient in industry-standard software such as AutoCAD and Civil 3D. Strong knowledge of UK regulations, codes, and standards. Effective problem-solving and communication skills. Five years of experience in civil engineering. Most proud of developing innovative design solutions resulting in significant cost savings. Enthusiastic about joining a prestigious consultancy to contribute to impactful civil engineering projects and be part of a supportive and inclusive work culture.

EXPERIENCE

Senior Civil Engineer

Smithson Engineering

📅 2022 - Ongoing 📍 London, UK

Led and managed civil engineering projects, overseeing feasibility studies, design development, and construction activities.

- Managed a team of 10 engineers and ensured successful project delivery within specified timelines and budgets.
- Implemented innovative design solutions resulting in cost savings of over £1 million.
- Collaborated with clients to understand project requirements and provided technical guidance and support throughout the project lifecycle.

Civil Engineer

Urban Solutions Ltd.

📅 2017 - 2022 📍 Manchester, UK

Worked on a wide range of civil engineering projects, including infrastructure development and urban revitalization.

- Developed detailed engineering designs, drawings, and specifications for various projects.
- Conducted comprehensive site investigations and risk assessments to identify potential challenges and ensure project feasibility.
- Collaborated with architects and contractors to ensure seamless project execution and compliance with regulations.

MY LIFE PHILOSOPHY

Every great engineering project starts with a vision and is brought to life through dedication and expertise.

STRENGTHS

Leadership

Led and managed civil engineering projects, resulting in successful project completion and client satisfaction.

Problem-solving

Expert in conducting feasibility studies and risk assessments to identify solutions and mitigate project challenges.

Collaboration

Highly skilled in collaborating with multidisciplinary teams to ensure project coordination and timely delivery.
