SUMMARY

When I began floral design, I was trained on the job with Emporia Floral by wonderful designers. When I moved to the Kansas City area, I chose to work part time at HyVee floral, so that I could remain in the design field while staying at home with my children during the day. It was during this time that I received my FTD Master designer certification. I did not work in a traditional floral shop after HyVee, however I did work occasionally with Andrea Grist Floral designs through the years as an occasional designer. Over my years as a floral designer, I attended design shows, hands-on sessions, competitions, and conferences. I now have my own business doing wedding embroidery, but have grown to miss floral design, and I am hoping to get back in to floral on a part time basis.

ACCOMPLISHMENTS

FTD Certified Master Floral Designer

EXPERIENCE

Floral Designer, 10/1997 - 05/1999

Gelson's – Laguna Beach, CA

Full time floral designer with Emporia Floral. Responsibilities included every day design for orders and floor sales, in both fresh and permanent arrangements. Duties also included window and floor displays for different seasons/holidays, customer service, daily flower processing, care of greenhouse plants, taking and transferring orders via floral computer system, and opening and closing the shop when the manager was out of town.

Floral Designer, 07/2000 - 07/2003

Gelson's – San Diego, CA

Part time floral designer with HyVee floral, responsible for daily design for orders, as well as cooler designs. Also responsible for floor display, taking orders in person or over the phone, transferring floral orders, and general floral care and handling.

Cash Office Associate, 08/2014 - Current

Spartannash – Fenton, MI

Cash office associate-Part time alternating weekends.

Open, close and balance register and records information on a balance sheet. Regularly identify and inform Customer Service Supervisor and Loss Prevention Supervisor of register variances and errors. Investigate variances and errors to help in their correction. Prepare funds and media for cash registers at opening. Provides change for registers and collects cash and media pick-ups. Performs register reads and resets. Processes daily reports generated by the COSA system. Separates and submits reports, balance sheets, and media to the Cash and Sales Audit department.
