## Civil Engineer

### Qualifications Profile

Innovative, detail-oriented, and results-driven professional with extensive experience in commercial and residential construction and large-scale project management. Armed with expertise in materials preparation, scheduling, structures inspections, and documentation. Effective at managing plans and specifications, conducting requirements analysis, and monitoring the overall stages of construction; while ensuring the completion of all projects within time and cost constraints as well as industry standards.

### Areas of Expertise

*Project Planning and Execution  
Quality Control Administration*

*Onsite Management  
Soil Excavation and Embankment*

*Technical and Engineering Support  
Regulatory Compliance*

### Professional Experience

PRIMORIS SERVICE CORPORATION/JAMES CONSTRUCTION GROUP | BATON ROUGE, LA

**Project Engineer** 2016–Present

**Project:** I-10 JCT: I-49 to LA 328, State Project No. H.003003

**Location:** Lafayette/St. Martins Parish, LA

**Project Cost:** \$130M

- Work on additional travel lane, eastbound and westbound to the interstate; as well as the completion of bridge projects, which involves demolishing and replacing one of six bridges and building additional bridging for five remaining bridges
- Conduct in-depth quality control analysis on embankment subgrade layer, class II base course materials, soil reports and testing, roadwork requirements, asphalt concrete pavement, drainage, roadway lighting, concrete slab spans, type II girder bridge spans, and pre-stressed trapezoidal concrete girder bridge span

**Project Engineer** 2014–2016

**Project:** MacArthur Interchange Completion, State Project No. H.009933 Phase 1B

**Location:** Jefferson/Orleans Parish, LA

**Project Cost:** \$35M

- Administered quality control for reinforced steel concrete structures; inspecting and executing corrective action based on project plans and specification; and preparing reinforcing steel and MASS concrete temperature monitoring reports for the owner
- Coordinated with project owners with regard to structure inspections
- Played a lead role in completing a wide range of project management functions, which included scheduling, documentation, phase of work, and collaboration with subcontractors and project personnel

US RESTORATION LLC | HARAHAN, LA

**Project Manager** 2010–2014

**Project:** Patrician Military Housing, Bell Chasse Naval Air Station

**Location:** Jefferson/Orleans Parish, LA

**Project Cost:** \$1.2M

- Directly coordinated with subcontractors regarding weather related structural damage, which involved electrical, plumbing, and interior housing repairs
- Served as co-project manager in charge of scheduling, labor, material delivery, purchasing, and daily progress updates to the management

NATIONWIDE RESTORATION | METAIRIE, LA

**Supervisor/Project Manager** 2006–2007

**Project:** Residential Reconstruction Project of Over 85 Occupied Units in a 27-Story Condominium Complex

**Location:** Hollywood, FL

**Project Cost:** \$1.2M

- Provided oversight to all aspects of weather-related structural damage, including electrical, plumbing, exterior structural repairs, and extensive interior areas
- Maintained active involvement with Broward County meeting for city hall permit department disciplines throughout project life cycles ensuring the attainment of state specifications for reconstruction
