SUMMARY

Passionate and experienced Apparel Designer with 7+ years of success in design, product development, and sourcing. Proven track record of creating innovative and on-trend designs while optimizing production processes. Strong knowledge of fabric evaluation, fit sessions, and international trade regulations. Skilled in collaborating with cross-functional teams to achieve exceptional product results. Excited to bring my creativity and expertise to FAM Brands, a leader in apparel design and manufacturing, to contribute to the company's mission of making top-quality apparel accessible to everyone.

EXPERIENCE

Apparel Designer

2022 - Ongoing

Marika

Los Angeles, CA

Collaborated with design and production teams to develop innovative activewear designs, resulting in a 20% increase in sales.

- Created technical drawings and specifications for garments, ensuring accurate and efficient production processes.
- Conducted market research to identify emerging trends and incorporated them into design concepts.
- Managed the entire product development lifecycle, from concept to production, ensuring on-time delivery and adherence to quality standards.

Product Developer

2017 - 2022

Wildfox

Los Angeles, CA

Led product development and sourcing initiatives for women's fashion brand, resulting in a 15% reduction in production costs.

- Sourced and evaluated new fabric suppliers, negotiating competitive pricing and maintaining quality standards.
- Coordinated with overseas factories to ensure timely production and delivery of finished products.
- Conducted fit sessions and provided detailed feedback to pattern makers and technical designers.

Assistant Apparel Designer

2015 - 2017

Three Dots

Los Angeles, CA

Supported design team in creating and developing knitwear collections, resulting in a 10% increase in customer satisfaction.

- Assisted in trend research and mood board creation to inform design direction.
- Created technical sketches and communicated design specifications to pattern makers and sample sewers.
- Collaborated with cross-functional teams to ensure seamless execution of product development process.
