- Sewing & Tailoring
- Fine Art & Textiles
- Budget & Cost Control
- Fashion History Research

### Career Summary

Jan 2020 - Present

Cinegrade Digital Cinema, Nashville, TN  
Costume Designer

#### Outline

Satisfy the unique demands of designing clothes for film and TV shows, for a full-service production company with 1K+ employees that is dedicated to producing stunning and engaging video content for 800+ global brands.

#### Key Responsibilities

- Utilize a solid understanding of story, character, mood, and other filmmaking elements to construct attire for cast members.
- Participate in pre-production meeting with the team prior to the audition process.
- Read full scripts, studied time periods and settings of sitcoms, film, and motion pictures, as well as note areas that could affect costumes.
- Present preliminary sketches for sign-off and carry out final designs in accordance with chosen fabrics, styles, and colors.
- Execute construction technical packet procedures to expedite collaboration with the costume shop.
- Maintain budgetary parameters by buying textiles or ordering pre-fabricated clothing from suppliers.
- Supervise fittings and dress rehearsals and return, store, and dispose of used costumes.
- Assure garments adhere to specific narrative requirements, while also being durable enough to withstand repeated wear and quick changes between scenes.
- Remain abreast of industry developments by identifying new trends, fabrics and techniques, as well as seeking design inspiration.

#### Key Achievements

- Reduced expenses by 30% through diligently managing the entire costume department, including budget and production time tables.
- Improved team performance by 50% due to training junior designers how to customize materials through dyeing, painting, and sewing fabric.
- Established schedules for every costume, which expedited production time by three hours.
