📍 Louisville, CO

EXPERIENCE

Senior Architect

Borer Ltd

📅 2018 - Ongoing 📍 Louisville, CO

Borer Ltd is an architectural designer firm focused on building offices and commercial buildings.

- Worked on commercial buildings valued in the range of \$15-50 million
- Accomplished 2 Master-plans: Building Sustainability 2030, Office Space Challenges 2030
- Developed building information models using Revit

Junior Architect

Carroll

📅 2014 - 2016 📍 Louisville, CO

Carroll is a regional Engineering & Architecture company specialised in office buildings.

- Created 2D drawings of floor plans, sections using AutoCAD
- Used 3DS Max and V-Ray to render photorealistic visualizations for presentation and marketing purposes
- Performed research for lead architect on specifications, materials, building codes

Entry-Level Architectural Designer

Hudson PLC

📅 2012 - 2014 📍 Louisville, CO

Hudson PLC is a Fortune 5000, architecture and design company.

- Coordinated floor layouts with the MEP Engineering department and contractors on site
- Assisted Project Managers with reports, cost estimates and time tables

MS in Architecture & Design

University of Chicago

📅 2008 - 2012

GPA

3.9 / 4.0

CERTIFICATION

National Council of Architectural Registration Boards

2015

LANGUAGES

English

Native

Arabic

Advanced

SKILLS

CAD & 3D Design

SolidWorks

AutoCAD

3ds Max

BIM Software

BIM 360

Revit

STRENGTHS

Negotiation

Negotiated alternative solutions with a major stakeholder who blocked progress because a key feature they wanted didn't go through budget and engineering constraints.

Leadership

Stepped in place of the lead architect for 3 months and maintained strict control over the construction process, ensuring the final design was completed within specifications.

Budget Planning

Worked with the Project Management to create cost estimates and optimize the design of the building to fit the budget.
