BRIEF SUMMARY

I have many years of teaching visual art behind me. Most of them are in Pinellas County. My wife also works for Pinellas County Schools. She is the media specialist at Palm Harbor University High School. We have owned the same home for 20 years. We both are established in our careers. I am interested in returning to an elementary school environment and would appreciate your consideration.

WORK HISTORY

VISUAL ARTS TEACHER 07/1993 to 05/1996

The Archer School For Girls | Los Angeles, CA

Riviera Elementary was a K-6 school. Besides teaching art I had the typical responsibilities of lunch duty, bus duty, etc. I took over the yearbook, made props for student plays, and had an art club. I brought computers into the art room, and that was a pretty big deal in this time period.

VISUAL ARTS TEACHER 07/1996 to 05/1998

The Archer School For Girls | Los Angeles, CA

When I got this job it was a big deal to me for several reasons. It brought me back to Pinellas County where we bought the same home we own today. I worked with my high school art teacher from Clearwater High. I also worked with my intern art teacher. I taught photography, painting and drawing, and 2D intro.

VISUAL ARTS TEACHER 07/2000 to 05/2001

The Archer School For Girls | Los Angeles, CA

I drove from school to school and taught art. Previous to this job I spent a couple of years working with my father. I sold packaging materials. After a year of this situation I was offered a job at Carwise Middle School as the principal there was married to the principal of Plumb Elementary.

VISUAL ARTS TEACHER 07/2001 to 05/2002

The Archer School For Girls | Los Angeles, CA

I taught art to the students there on the "wheel". I taught here for a year and I was offered a position at Countryside High as the principal of Carwise recommended me to Dr. Janssen.

VISUAL ARTS TEACHER 07/2002 to CURRENT

The Archer School For Girls | Los Angeles, CA

I am the 3D teacher, I teach sculpture. This includes ceramics. I run a fairly large classroom and am in charge of materials and keeping the place sailing so that I can teach to the best of my ability. I feel that my classroom speaks to the type of teacher I am. I would love to have interested employers see what I have done at Countryside. There is plenty of student work around the entire campus.

EDUCATION

Bachelor of Science | Art Education 1992
University of South Florida, Tampa, FL
