

ANDY WILLIAMS

CIVIL ENGINEER

(213) 232 34 43 – hello@andywilliams.com – www.andywilliams.com

Highly successful civil engineer with over 8 years of experience in designing, developing, creating, and maintaining both large and small-scale construction projects, keeping safety, timeliness, and sustainability as priorities.

Documented success in conducting on-site investigations, and analyzing maps, reports, tests, and drawings.

PERFORMANCE HIGHLIGHTS

- Simultaneously handled 4 civil engineering projects, leading all of them to fruition within provided deadlines.
- Developed and implemented a system that ensured quality control at every level of a construction project.
- Consistently met deadlines for 5 years, leading all assigned projects to completion in an efficient manner.
- Implemented the concept of project reviews, making each module more efficient than before.
- Carried out technical and feasibility studies, and drew up blueprints aimed at satisfying technical specifications.
- Actively supervised tendering procedures, and put well-structured proposals together.
- Managed, supervised, and visited contractors on sites
- Advised on civil engineering issues.

EXPERIENCE

CIVIL ENGINEER: Bees Construction (Orlando, FL), 2011 – present

- Perform site investigation, analyze survey reports, and other information to plan civil engineering projects.
- Determine construction costs, government regulations, potential environmental hazards, and other factors in the planning stages.

ASSISTANT ENGINEER: G Construction (Orlando, FL), 2005 – 2011

- Assisted in preparing geometric analysis and calculations, based on design criteria.
- Prepared project plans, and drawings for various projects, such as urban and rural roadways, highways, and structures.

EDUCATION

MASTER'S DEGREE IN CIVIL ENGINEERING

Orlando State University (Orlando, FL), 2011 – 2015

BACHELOR'S DEGREE IN CIVIL ENGINEERING

Orlando State University (Orlando, FL), 2002 – 2011
