## JOB OBJECTIVE

Looking for work as Civil Engineer today in order to further advance my skills in the industry.

## EDUCATION

**Bachelor's Degree in Civil Engineering, 2012**

Goddard College, Plainfield, VT

## WORK SUMMARY

### Civil Engineer, 2016 - Present

AFCOM

- Participated in company planning meetings at all levels to include presentation of project status.
- Provided civil engineering expertise and support for maintenance engineering issues on a wide range of civil engineering issues and problems.
- Assisted in the coordination and review of consultants' design work.
- Coordinated projects with engineers in other disciplines and with architects.
- Prepared and reviewed site survey reports and site requirement documents to ensure accuracy.

### Civil Engineer, 2014 - 2016

Parsons

- Planned and conducted independent evaluation, selection and adaptation of engineering techniques, procedures and criteria.
- Reviewed construction and communications system design packages from design agencies and vendors.
- Performed project management, consulting, investigations, and evaluations involving design and construction.
- Performed maintenance, repair, upgrade, and operation of infrastructure facilities, including utility systems.
- Provided technical consultation and advice on requirements and scope for facility and infrastructure projects.
- Ensured compatibility and conformance of all projects with installation design standards.
