PROFESSIONAL EXPERIENCE

United Airlines, San Francisco, CA

1999 – 2007

Flight Officer

- First Officer for more than 600 B-727 and A-320 flights, logging 1,600 hours. Conducted Part 121 operations in US, Canada, and Mexico. EFIS, FMS, and RNAV experienced.
- Supported and assisted captain, flew scheduled legs of commercial flights.
- Performed complete pre-flight inspection and preparations. Conducted safety, fuel, and weather analyses, interior and exterior physical inspections, and coordinated with ground and terminal crews.
- Executed pre-flight and maintenance reviews, flight plan reviews, and weight / balance computations.
- Carried out approaches and landings under marginal weather conditions, including one instance when captain became ill during flight.
- Recognized for outstanding performance for personally completing visuals-only landing on flight where both primary and backup computer systems failed, necessitating manual extending of landing gear.

United States Air Force

1982 – 1999

Chief, Standardization & Evaluations / KC-135R/T Instructor, Pilot, and Evaluator Pilot (1997 – 1999)

- Commanded, trained, and evaluated aircrews in global air operations. Led training programs.
- Chief Pilot for KC-135 Stratotanker avionics testing, training, and program development for Pacer CRAG KC-135 upgrade project. Designed Pacer CRAG Initial Cadre Instructor Course.
- Served as Advisor and flight instructor for Singapore Air Force Peace Guardian attachment.

Air Tasking Order (ATO) Planner (1997 – 1998)

- Planned and carried out daily missions for all Operations Southern Watch air refueling missions across Southwest Asia / Saudi Arabia.
- Formulated comprehensive aerial refueling contingency plan for Operation Desert Fox. Provided operational expertise to Director of Operations on all aspects of air tanker deployment.

Chief, Air Refueling Operations Analysis (1994 – 1997)

- Carried out statistical and computer analyses to determine future force structure requirements.
- Managed \$1.2 million software development project involving development of integrated simulation and modeling system for utilization by Air Force, Army, and Navy. Completed project ahead of schedule and under budget, while meeting all DOD requirements.
- Prepared and delivered operational and training policy recommendations for senior officials.
