Work experience

Special Education Student Teaching
Austin Middle School, Austin, Texas

Aug 2020 - Present

This was the second step of my educational training. After completing my ESL student teaching internship, I participated in student teaching program with 7th and 8th grade special needs students. Worked with students with autism, down syndrome, and other developmental conditions.

- Engaging and teaching a diverse group of 20 special education students.
- Developed online interactive lesson plans to continue special educational instruction during COVID-19 pandemic.
- Worked with general education teachers and special education peers to develop and implement lesson plans based on IEP standards.
- Managed student behavior while being compassionate and created responsive techniques that help develop the student's self-control and emotional response.
- Met with parents and guardians to discuss IEP program and student progress.
- Assess student development, graded lessons and assignments, and fine-tuned individual lesson plans to improve each student's comprehension and learning abilities.
