

# Alton Fallie

## **.NET Developer Adept at Applying Programming Enhancements for Both Front End and Back End**

Innovative and seasoned professional with 5 years of experience in utilizing ASP.NET, VB.NET, and Microsoft Visual Studio 2019 for development. Proficient in troubleshooting problems through customer requests. Proven success in managing work items in Microsoft Team Foundation Server.

## Work Experience

### **.NET Developer • Haptic Group, Chicago**

- Worked in the FUNDLinx team with key responsibilities related to in-house mutual fund processing - trade, settlement, and income processing.
- Converted MFC-based utilities to C#.
- Boosted the filtering capability of the company WFP Datagrid by utilizing the DataGrid Extension library from DataGridExtentions.
- Successfully developed 5 multi-step wizard dialogs in WPF with Test Driven Development for the associated ViewModel.

Dec 2017 - May 2021

### **.NET Developer • TECH.NO, Charleston**

- Developed 3 in-house Accounting applications that utilize SSRS Reports, C#.NET, and Telerik Controls
- Leveraged AJAX and web services to set up autocomplete functionality for the company website.
- Assisted the IT team with the maintenance and troubleshooting of all relevant activities, including 45+ web applications, databases, and Adobe forms.

Dec 2014 - Jan 2017
