EMPLOYMENT HISTORY

Database Developer at MongoDB, Inc., NY

May 2023 - Present

- Developed and implemented a new database indexing system, resulting in a 35% reduction in query response times and improving overall application performance for over 100 clients.
- Successfully migrated 50+ legacy databases to MongoDB, streamlining data management processes and reducing maintenance costs by 25%.
- Led a team of 5 developers in the design and deployment of a scalable data warehousing solution, which increased data storage capacity by 200% and facilitated the growth of the company's product offerings.
- Optimized database performance through comprehensive performance tuning, resulting in a 40% increase in transaction processing speed and enhancing user experience for thousands of end-users.

Associate Database Developer at Oracle Corporation, NY

Aug 2022 - Apr 2023

- Successfully designed and implemented a database optimization plan for a major client, resulting in a 35% improvement in query performance and reducing report generation time by 20%.
- Developed and deployed a data migration strategy for a large-scale database consolidation project, which involved migrating over 10 million records across 3 different systems, ensuring seamless data integration with minimal downtime.
- Led a team of junior developers to create a custom data analysis tool that increased the efficiency of internal reporting processes by 40%, enabling faster decision-making and improved business insights.
- Collaborated with cross-functional teams to resolve over 100 critical database performance issues within a year, maintaining a 99.5% uptime for all client databases and contributing to a 15% increase in overall customer satisfaction.

EDUCATION

Bachelor of Science in Database Development at Columbia University, New York, NY

Aug 2018 - May 2022

Relevant Coursework: Database Design and Implementation, Data Structures and Algorithms, SQL and NoSQL Databases, Data Warehousing and Mining, Database Administration, Information Security, and Big Data Analytics.

CERTIFICATES

Microsoft Certified: Azure Database Administrator Associate
