PROFESSIONAL SUMMARY

I will bring 30 years worth of experience dealing with people of all ages and walks of life. Being in a classroom setting and working with students grades K-12, has taught me the crucial skills of flexibility, thinking on your feet and creating an environment that celebrates passion, learning and most importantly, fun. These are skill sets that will translate into any career path. My passion for art and creating will carry over into any future job. I have been fortunate enough to receive "Teacher of the Year" honors at all three schools were I have taught. My passions include not only art, but gardening, sewing and volunteering. As moderator of our school's Support the Troops Club, I organized two 5K runs for the Wounded Warrior Project that raised over \$23,000. I share my love of our Betterton community by being a docent for the Betterton Heritage Museum. I get to interact with people from all walks of life and share the rich history of Kent County, MD. Even though I have retired from teaching, I would like to remain an active and vital part of the community in whatever way I can. As a grower technician, I will be able to use my people skills and love of gardening to help the surrounding community.

SKILLS
