## Experience

**Designer**, 01/2016 to Current

**Apple Inc.** – Las Vegas, NV

Started as a back-up designer for floral arrangements and gift baskets and had no experience. However, with very little training I was able to make quality arrangements without help or supervision. Less than 6 months later, I was able to be trusted to run the shop 2-3 days a week without a manager and took care of daily operations with pride.

**Student Assistant**, 07/2014 to Current

**The New School** – New York, NY

Cared for children ages birth-4 years old. Was able to remain calm in many stressful situations and help the children learn and grow into amazing young people. Easily trained on tasks and procedures and was quickly made a reliable and trustworthy team member.

**Team Member**, 07/2012 to 01/2016

**Vinaigrette Salad Kitchen** – Louisville, KY

I started by making drinks and worked my way up to a position of leadership where I trained new employees on everything from making drinks, cooking and assembling food, taking orders, working the cash register, cleaning dishes, preparing food, and closing and opening the store. I received three raises while I was there and was known as a very hardworking and quick learning team member.
