Dot Net Developer with around 4 plus years of experience in design, development, coding and testing of business/commercial applications using C#, ASP. Net, ADO. Net, Microsoft Enterprise Library, SOAP, Web Services, Windows Service, WCF Services, MVC and SQL Experience in Object Oriented Programming with Microsoft .NET technologies such as .NET ASP.NET, C#, VB.NET, IIS, DOM, XSL, XSLT, HTML 5, Java Script, JSON, Razor, Bootstrap, Visual Studio, Net NHibernate, ADO. Net, TFS and Entity Framework.

Skills

ASP.NET, ADO.NET, WPF, WCF, LINQ Languages: C, C++, C#, PL/SQL, TSQL Database: SQL Server Oracle 9i/10g Frameworks: .NET MVC Web Technology: HTML, XML, JavaScript, AngularJS, AJAX, CSS, SOAP, Web Services, Windows Service Server Platforms: IIS Windows Server SPI IDE: Microsoft Visual Studio .NET Reporting Services: Crystal Reports Version Control: Tortoise SVN, MS-Team Foundation Server, Microsoft Visual Source Safe Operating Systems: Windows Unix

Work Experience

Dot Net Developer

Nutrisystem - September 2015 – Present

- Analyzing the business requirements and proposed asp. Net based front end and sql based backend solutions.
- Interacting with the system users to identify and gather data required for processing.
- Designing and developing various abstract classes, interfaces, classes using object oriented principles to construct the business logic using C#.
- Performing design and development of Asp.Net 4.5 web application using c# and separate user interface logic from the business logic.
- Implementing Asp.Net 4.5 validation controls to validate the user input on the server-side.
- Extensively using the CSS to provide flexible presentation, enabling multiple pages to share formatting and reduce complexity and redundancy of the html pages.
- Enhancing pages with different Ajax controls which provided responsive user interfaces to display the data on the web page.

Dot Net Developer

Blackboard - February 2014 – August 2015

- Implemented crud functionality with entity framework in Asp.Net MVC 4.0.
- Responsible for developing the reusable components on UI(views) by developed the partial views, view starts, and reusable components.
- Supported the deployment and upgraded of other related modules and applications.
- Regression testing of the application in case of any upgrade and outages.
- Responsible to get sign-off from the customer for software fixes in case of support tickets and design in case of minor enhancements.
- Replaced existing infragistics 7.1 controls with 15.1 and supported (ie. chrome and firefox) browsers.
- Developed partial classes and custom action filters for exception handling.
