ELECTRICAL ENGINEER

QUALIFICATIONS PROFILE

Highly analytical, innovative, and results-focused professional with broad-based experience in electrical and communication engineering, encompassing embedded system operation, quality control, and configuration. Known for adeptness in electrical system troubleshooting, engineering plans development, and raw material handling. Expert at overseeing the entire project life cycle and ensuring on-time completion and implementation. Equipped with strong work ethic, technical, problem-solving, and critical thinking aptitudes; along with communication skills utilizing multilingual fluency in English, Hindi, Punjabi, and Urdu.

AREAS OF EXPERTISE

Electrical Project Planning and Execution

Component and Equipment Installation

Technical and Engineering Support

Electrical Specification Analysis

Material and Project Testing

Current and Voltage Monitoring

PROFESSIONAL EXPERIENCE

SOFCON COMPANY • NOIDA, DL, INDIA

Electrical Engineer

Jul 2015–Sep 2016

- Displayed expertise in handling embedded system programming and practical electronics as well as in utilizing computers in operating equipment
- Conducted server testing process to ensure efficiency of operation, configuration, and remote management
- Provided first-rate support to team in overseeing all areas of plant, while maintaining and monitoring the current and voltage reading through ammeter and voltmeter
- Handled the operation, installation, and maintenance of different electrical equipment, including router, direct current/alternating current (DC/AC) motor, resistance, capacitor, and microcontroller integrated circuit (IC) for both computer and printer circuit board (PCB)

TELCOCRATS PVT. LTD. • MOHALI, PB, INDIA

Electronic and Communication Engineer

Jan 2017–Oct 2017

- Demonstrated broad knowledge of using various electrical and engineer tools, such MapInfo, mobile communications network application (MCOM), ATOLL, OMT, and RL Tool
- Performed outdoor services for setting up new antennas
- Contributed key insights in the attainment of overall systems with network efficiency with organized group of individuals with tight deadlines
- Oversaw the development and management of long- and short-term projects based on individual priorities

ADDITIONAL EXPERIENCE

APPLE INC. • ELK GROVE, CA, USA

Material Handler

Jul 2018–Present

- Assemble workstations including hardware and software services such as GSX and Apple Connect
- Proactively interacted with users and customers to communicate technical terms
- Resolved network operating failure and interruptions by troubleshooting hardware and software

EDUCATION

Bachelor of Science in Electronics and Communication Engineering: GPA: 3.6 • 2017

I.K. Gujral Punjab Technical University • Ibban, PB, India
