SUMMARY

Driven and highly experienced risk management consultant with 10+ years of experience helping companies identify, mitigate and manage various business risks. Seeking to leverage my knowledge in enterprise-level risk assessment, compliance regulations and internal audit processes at ABC Consulting to help clients stay compliant while minimizing potential losses. Key achievements include reducing client's exposure by 15% through comprehensive analysis and development of strategies for mitigating identified risks.

EMPLOYMENT

Risk Management Consultant at Employer A

Enterprise | January 2018 to Present

- Implemented comprehensive risk management strategies and protocols to ensure the safety of a \$2.5 billion portfolio, resulting in a 14% decrease in company losses over 6 months.
- Introduced new processes for identifying potential risks within existing systems, thereby improving overall security measures by 25%.
- Reported on identified risks and proposed solutions to senior executives; successfully resolved 75% of issues without additional external assistance.
- Resourcefully utilized industry-standard software such as SAS & RStudio for data analysis, enabling more informed decision making when evaluating investment or business opportunities with high levels of associated risk exposure.
- Utilized strong interpersonal skills to build relationships with stakeholders from multiple departments and present complex concepts related to risk management in an accessible manner that was easy for everyone to understand and follow through on implementation tasks effectively.

Risk Management Consultant at Employer B

Santa Rosa | March 2012 to December 2017

- Mitigated financial, production, and safety risks for over 50 corporate clients through comprehensive risk assessment analysis; reduced total losses by 20% year-over-year.
- Developed cost-effective strategies to identify and manage emerging financial threats while ensuring compliance with regulatory standards in a timely manner.
- Thoroughly reviewed company policies & procedures as part of the annual audit process to ensure that all systems were functioning at optimal levels; identified over \$4M in potential savings opportunities for key stakeholders.
- Reorganized business operations from an outdated manual system into automated processes using advanced management software solutions, reducing administrative costs by 25%.
- Documented risk reports and recommendations on a regular basis to inform board members of any new or changing risks facing their organization; developed clear action plans tailored to each client's specific needs within 24 hours upon request.
