## STRENGTHS

### ★ Mindset setter

With knowledge, patience, persistence and results you can convince anyone of your cause

### ★ Strategic

Not all things come easy. You need to know when to back-down and when to push and fight for something. Knowing when to do what is the difference between realism and idealism. You need a healthy balance of both.

### ★ Persuasive and influential

Being well-trained in the psychology of influence and persuasion as well as behavioral psychology and behavioral economics I can persuade and influence people with the goal to achieve my department's goals regardless of resistance.
