

## PROFESSIONAL EXPERIENCE

---

### **SENIOR FINANCE MANAGER**

Bin Chicken Enterprises

Feb. 2019 – Present

A key member of the Executive team leading a team of 10+ finance professionals responsible for partnering and collaborating with the CEO and the Executive Team to make decisions regarding the financial strategy and operational aspects of financial management.

- Direct integration of Company One following acquisition by Company Two, analysing financial operations to identify gaps, eliminate redundancies, and align financial functions with the organisation;
- Drive continual improvement of the business performance, administration and financing to maximise revenue generation and retention, cost efficiency and profit across multiple business units;
- Advance the insight and understanding of the business' unit economics and KPIs to drive further alignment and accountability across the company;
- Ensure the business meets all required statutory reporting, contractual obligations, auditing, tax, requirements and maintains an exemplary reputation through the management of governance and risk;
- Collaborate with other teams to assess the economic return on strategic initiatives and provide actionable insights to help drive optimal business decisions;

#### **ACHIEVEMENTS:**

- Increased annual company revenue from \$22M to \$46M through six targeted acquisitions and spearheaded a lean management system across the business;
- Established a centralised procurement team of five professionals achieving savings of \$5 million; Captured \$60MM in savings over five years, streamlining and standardising accounting and reporting processes to reduce close cycle by ten days;
- Drove first post-acquisition global audit, enabling timely, accurate closing of 50+ entities by developing automated dashboards with iterative improvement frameworks.

### **SENIOR FINANCE MANAGER**

Tinkov Digital

Nov. 2011 – Jan. 2014

A key part of the Australian finance team I partnered closely with key stakeholders (including the CFO) to understand performance and drive initiatives to reach our growth and margin goals.

- Accountable for the complete ownership of the AU balance sheet review process, including the flagging of risks and opportunities to the CFO as they arise;
- Led a team of four to deliver relevant and timely commercially based reporting and analytics including cost allocation models and key benchmarking to drive cost efficiency and mitigate risk;
- Co-ordinated timely preparation and ensured accuracy of financial statements and associated supporting information, including solving technical accounting issues;
- Facilitated the integration of new processes, revenue streams and system migrations ensuring the mitigation of all potential financial risks and recommend best practice;
- Analysed business operations, trends, costs, revenues, financial commitments and obligations, to project future revenues and expenses;
