Defined

SUMMARY

Enthusiastic Architecture Student with 6 years of experience in renowned architectural firms. Specialized skills in architectural design, 3D modeling using software like AutoCAD, Revit and SketchUp. Proud recipient of the Sustainable Design Trophy for innovative design concepts. Eager to apply these skills to help build sustainable and aesthetically pleasing architectural solutions.

EXPERIENCE

2019 - 2021

London, UK

- **Architecture Student**

Zaha Hadid Architects

Worked on several significant projects, contributing to various stages of the architectural process

- Assisted in design development, resulting in innovative proposals for two major commercial projects
- Conducted site analysis for three potential project locations, providing detailed reports with feasible design suggestions
- Collaborated in creating 3D architectural designs using Revit and SketchUp for five different projects

2017 - 2019

San Francisco, USA

- **Architecture Student**

Gensler

Involved in a number of high-profile projects, assisting in various stages of design and planning

- Worked closely with senior architects to develop preliminary sketches for four commercial building projects
- Assisted in 3D modeling and drafting of architectural plans for multiple large-scale projects using AutoCAD, resulting in efficient and accurate designs
- Participated in client meetings and site visits, aiding in the communication and execution of design concepts

2015 - 2017

London, UK

- **Architecture Student**

Foster + Partners

Participated in different project stages including research, design, and drafting

- Contributed to research and feasibility studies for three urban development projects
- Collaborated in drafting detailed architectural plans using CAD software for two residential projects
- Assisted in preparing architectural models and renderings for client presentations

STRENGTHS

Creativity

My innovative architectural design for a commercial project at Zaha Hadid Architects was recognized as highly creative

Teamwork

Successfully collaborated with diverse teams at Gensler and Foster + Partners on complex architectural projects

Technical Skills

Proficient in various design tools like Revit, AutoCAD and SketchUp, aiding in efficient and accurate designs

EDUCATION

2013 - 2015

London, UK

- **Master's Degree in Architecture**

University College London

2009 - 2013

Berkeley, USA

- **Bachelor's Degree in Architecture**

University of California, Berkeley
