EXPERIENCE

Database Manager – Harber-Jerde, *Houston, TX*

08/2018 – Present

- Effectively work in team environment with multiple skill set levels
- Interact with technical and non-technical colleagues, including the ability to facilitate decision making by clearly representing complex technical subjects

Database Manager – Beatty, Ebert and Doyle, *Houston, TX*

04/2015 – 03/2018

- Define how the team evolves and interacts with the rest of engineering
- Help educate the rest of the Engineering Organization about the performance consequences of their code
- Drive technical investigations, prototypes and experiments (and guide and empower other engineers to do so)

EDUCATION

Academy of Art University – Bachelor's in Computer Science

SKILLS

- Participate in identifying opportunities and improving the processes and culture of the engineering organisation in general
- Experience of working on at least one Relational Database (e.g., Oracle, PostgreSQL, MySQL) and knowledge of internals and performance metrics of RDBMS
