## .NET Full-Stack Developer

.NET Full-Stack Developer with five years of experience leading client-firm consultations and developing web applications. Led teams of 5-15 people across technology, business, and design departments.

### EXPERIENCE

#### **Resume Worded, New York, NY**

##### **.NET Full-Stack Developer**

January 2020 - Present

- Led an Accounts Revenue Reporting project, involving database design using Ajax which successfully attracted \$1.3 million worth of potential revenue.
- Reduced delays in contract delivery pacing from 15% to 2% by improving project framework using ASP.NET
- Provided training to over 15 engineers to customize and deploy commercial unit testing tools using ASP.NET, VB.NET, Ajax, and JavaScript.
- Reduced power requirements by 40% through improving multiple performance measures and developing firmware code using SQL Server.

#### **Growthsi, Remote**

##### **Software Developer**

July 2016 - January 2020

- Created documentation to address common technical issues, reducing the number of technical support inquiries by 20 %.
- Improved built-in software performance dramatically from 12 hours to 25 minutes for daily matrix generation by working on the generation of PAWS daily matrix.
- Reduced the size of CSS files by 3,000 lines of code which reduced defects and page load times through monitoring CSS code whilst managing a team of 25 onsite and offshore developers.

#### **Resume Worded, Boston, MA**

##### **Web Developer**

January 2012 - June 2016

- Improved the efficiency of operation by 35% through developing a brand new administration panel for purchasing agent business.
- Increased customer satisfaction by 65% through creating databases utilizing PHP5, PDO, and MySQL that streamlined trucking operations from creating, assigning, and tracking truckloads, offering a paperless solution.
- Increased daily traffic by 45% through redesigning the existing website to improve user experience.
