SUMMARY

I am a digital forensic analyst with a passion for software development. During my time at Vestige and Defiance College I have gained great experience working in teams as well as taking on large projects individually in order to efficiently deliver the best quality product to the customer. I am a self-taught developer who loves to be challenged, and being a detail-oriented/self-motivated individual I am confident I will be able to build and maintain strong, secure, and dynamic software to customers around the world.

SKILLS

JavaScript	Driven by quality
HTML5 & CSS3	Exceptional team worker
Java & Python	Great communicator

WORK HISTORY

DIGITAL FORENSIC ANALYST
10/2016 to CURRENT

Rtx | Pico Rivera, CA

As a digital forensic analyst I am responsible for:

- Examining digital media for evidence of file access and movement, data destruction, USB usage, internet history, and more to determine what the activity was taking place
- Writing reports based on my findings
- Supervising and training data evidence specialists
- Presenting tech meetings on new artifacts

During my time at Vestige I have taught myself how to program in order to automate many of the time-consuming tasks the analysts were forced to do on a day-to-day basis. A few scripts that I made are capable of:

- Searching mobile device extraction data for keywords and formatting the data into spreadsheets that are easy to understand and ready to present to customers
- Parsing obscure Mac LOG and PLIST files to present clear and readable data for analysts to quickly examine
- Parsing a Windows registry for USB usage, recent file activity, installed software, and more

DATA EVIDENCE SPECIALIST
06/2015 to 10/2016

Vestige Digital Investigations | City, STATE

The major responsibilities I took on as a data evidence specialist included:

- Securing and preserving any and every type of digital media including but not limited to CDs, SD cards, thumb drives, cell phones, computers, and servers
- Maintaining the inventory and chain of custody of all evidence
- Backing up and archiving data
- Sanitizing and re-purposing media
- Preparing evidence for analysts
- Assisting in the analysis process

EDUCATION

Bachelor of Science | Digital Forensic Science
2015

Defiance College, Defiance, OH

ACCOMPLISHMENTS

- Outstanding Senior in Digital Forensics
- Scholastic Excellence in Digital Forensics
- Graduated Magna Cum Laude
