PROFESSIONAL EXPERIENCE

October 2017–Present
Senior Consultant
EY, New York, NY

- Deliver strategic consulting and change management support to Fortune 500 firms, including business process transformation and workflow improvements
- Serve as a trusted advisor, cultivating rapport with C-level executives and working closely with management teams to examine firms' existing resources and practices
- Devise strategic frameworks and business models to identify complex problems, aligning stakeholders, minimizing change resistance and risks
- Strategized and implemented enterprise-wide SAP ERP solution for a billion-dollar banking institution, resulting in a 70% improvement in critical business processes

July 2013–September 2017
Management Consultant
VISA, Atlanta, GA

- Managed relationship and performance improvement, including leading business operations for various company services globally
- Identified business operational needs for products and services within VISA's consumer credit product line, leveraging expertise in vendor management, account management, requirement analysis, and project implementation
- Drove consumer credit portfolio growth, achieving $10 million in new business development by expanding company services
- Delivered product implementation support to company clients, including process analysis, workflow design, and requirements planning to ensure 100% compliance with VISA's policies and procedures
