PROFESSIONAL SUMMARY

Innovative chartered architect with 10+ years of experience in complete architectural environments. Specialized in residential buildings and interior architecture. Provided architectural solutions to a number of top clients over the past year with a budget around $5 million. High level of proficiency in AutoCAD, Autodesk, and Revit. Effective communication skills to deal with contractors and other key personnel.

WORK EXPERIENCE

Architect   Jan 2020 - Present
Suano Constructions - *New York City, NY*

- Collaborated with the construction team to develop environmentally sustainable architecture projects by preparing the scale drawings, specifications, budgets, and other construction documents.
- Involved in all phases of the design and construction processes on 10+ international projects.
- Communicated and worked closely with other architects in the firm to complete construction 6 months earlier than the estimated construction time.
- Completed the construction saving 14% of the allocated budget.
- Oversaw the preparation of design and scale drawings specific to the instructions outlined in the construction documents.

Junior Architect   Jan 2018 - Dec 2019
Northwest Builders - *Eugene, OR*

- Used AutoCAD and Autodesk to create blueprints of 3 residential projects.
- Assisted contractors to ensure client expectations are met.
- Created 3D models using Revit for an interior designing project.
- Assisted in the evaluation and selection of building materials.

EDUCATION

Bachelor Of Architecture   Jan 2014 - Apr 2018
University Of Houston - *Houston, TX*

- Relevant coursework: Architectural Design History and Theory, Building designs, Liberal arts, Graphic design, Sustainable architecture, Physical sciences, Mathematics etc.
